

The 2015 NC qso party is history ! The club had another great outing on the battleship. We had 9 hams to come out, with 2 visitors from Raleigh, Karl Bowman, W4CHX, ARRL NC Section Manger and his wife Gale, K4GGB.

We made 301 contacts on 20 meters , 200 contacts on 15 & 40 meters and made 51 cw and PSK31contacts . The CW and PSK31 was very limited due to these modes causing interference to the voice modes caused by the antennas being so close to each other. Thanks to all who made this a great event !
